

Standardize & Simplify Your Ergonomic Evaluations

Ergo Evaluator

Employee health and safety is inextricably linked with workplace productivity and process efficiency. Performing ongoing ergonomic monitoring and assessments to identify potential workplace risks and ways to prevent them – whether physically in an office or in a remote setting – not only demonstrates to employees that they are a top priority, but that they also are the organization’s most valuable asset.

Benchmark ESG’s Ergo Evaluator module empowers employees to complete guided ergonomic self-assessments via an intuitive interface available on both Mobile & Desktop, with integrated QR code scanning for quick access from any office environment. Enable your health and safety leaders to seamlessly customize and manage evaluation checklists and forms to collect employee information and assign follow-up tasks to drive open action items to closure. And with out-of-the-box reporting & charting capabilities, you can analyze trends, body discomfort, and more to determine areas of improvement.

DISCOVER WHAT ERGO EVALUATOR CAN DO FOR YOU

Simplify ergonomic assessments from every perspective

- ▶ Establish a standardized process and workflow for all site ergonomic evaluations
- ▶ Build customized checklists (questions) that will be used for the evaluations
- ▶ Conduct office ergonomic workstation evaluations - Assign to employees for a self-evaluation or to a supervisor/manager
- ▶ Indicate & track corrective actions based on evaluation, affected body part(s) or recommended improvements
- ▶ Copy evaluations with similar ergonomic problems within and across locations
- ▶ Attach supporting documentation, such as diagrams, images or documents

Key Challenges to Performing Workplace Ergonomic Assessments

- ▶ Conducting various types of ergonomic assessments (self-evaluations, supervisor evaluations, EHS/ergonomic specialist evaluations) and tracking follow-up actions to closure
- ▶ Making ergonomic evaluation checklists available to all supervisors & employees
- ▶ Corrective actions need to be driven in a timely and organized manner and ensure effective closure
